SUBJECT INDEX

VOLUME 60

(The numerals indicate the page)

- Absorption**, intestinal, plasma osmotic pressure. 1.
- Adrenal** stimulation, vagina. 207.
- Adrenalectomy**, hair pigmentation, deficient diet. 396.
plasma protein. 260.
- Alloxan**, chronic hyperglycemia. 303.
diabetes, lipidemia, adrenal cortex lesions. 190.
- p-Aminobenzoic acid** scrub typhus. 80, 115.
- Aqueous** humor, parasympathomimetic effect, glaucoma. 293.
- Autonomic** balance, blood sugar. 247.
- Atabrine**, Tetrahymena geleii. 321.
- Atropine**, turtle heart. 64.
- Autonomic** balance, age. 98.
- Blood**, erythrocytes, castration, splenectomy, liver, iron, testosterone injn. 313.
hyperlipidemia, renal. 276.
plasma atabrine. Plasmodium vivax, morphology, motility. 257.
osmotic pressure, intestinal absorption. 1.
protein, adrenalectomy. 260.
protein depletion. 14
pressure, thoracic, cardiac, systemic, simultaneous registration. 75.
r.b.c. agglutinating agent, virus infected lung. 141.
sera, typing, prep'n., isoimmunization. 309.
Rh types, Puerto Ricans. 215.
sugar, autonomic balance. 247.
- Brain** abscess, meningitis, Corynebacterium ulcerogenes. 298.
intracortical organization, limb movement. 78.
- Cage**, Mouse, N studies. 378.
- Carbontetrachloride** liver injury, protection. 388.
- Cathartics**, fumaric acid salts. 301.
- Catheter**, double lumen, blood sampling, pressure recording. 73.
- Cephalin** flocculation, malaria. 140.
thymol turbidity tests, comparison. 245.
- Cerebrum** impedance changes, concussion. 237.
- Cholinesterase**, digitalis. 120.
- Chorda** tympani, sensory, motor axons. 262.
- Circulation** time, A-V fistula. 371.
dosage, volume. 40.
- Corpus** luteum growth, pregnancy, testosterone. 239.
- Corynebacterium ulcerogenes**, meningitis. 298.
- Creatinine**, absorption rate. 173.
- Diabetes**, alloxan, hyperlipidemia, adrenal cortex lesion. 190.
- Electronarcosis**, blood pressure. 391.
- Encephalitis** cause fixed, complement-fixation test. 220.
- Encephalomyelitis**, western equine, combined anesthesia, hyperimmune serum therapy. 163.
- Entamoeba histolytica** complement fixation. 31.
- Erysipelothrix rhusiopathiae**, penicillin, oral. 307.
- Erythropoiesis**, intermittent high altitude exposure. 384.
- Eustrongylides**, larval, O₂ lack, glycogen consumption, survival. 368.
- Fertility**, lactation, dietary needs, pyridoxin, pantothenic acid, rice. 250.
- Fibroblast** growth, x-ray, embryo extr. 132.
- Fumaric** acid salts, cathartics. 301.
- Gizzard** erosions, intestinal extr. 387.
- Glaucoma**, parasympathomimetic effect, aqueous humor. 293.
- Glucoscorbic** acid effect. 4.
- Gonococcus** adaptability, sulfathiazole, rivanol lactate, promin, penicillin. 168.
penicillin resistant, development. 354.
- Hair** pigmentation, adrenalectomy. 396.
- Hamster**, guinea pig, tbc. inoculation comparison. 255.
- Harder's** gland porphyrin. 228.
- Heart**, A-V fistula, circulation time, auricular pressure. 371.
turtle, atropine. 64.
- Hepatitis** transmission failure. 102.
- Hormone**, adrenocorticotrophic, hypophysectomy, adrenal demedullated. 329.
regulation, adrenal cortex extr. 162.
Androgen, corn pollen. 213.
Estrogen, splenic implantation. 108.
Esterone inactivation, liver. Liver injury assay. 344.
Progesterone, stilbesterol, no alteration E.E.G. 139.
Testosterone, corpus luteum growth. 239.
 β -hydroxybutyric acid clearance. 296.
- Hypertension** production, ligation periadrenal blood vessels. 332.
rats, Na restriction. 52.
- Influenza**, swine, antibody response, virus vaccination. 152.
- Irradiation**, fluorescent, effects. 254.
- Ketonemia**, fasting, low protein diet, glucose injn. 101.
- Lactation**, dietary needs, rice pyridoxin, pantothenic acid. 250.
- Lactobacillus arabinosus**, acid formation, turbidity. 311.
- Lens** grafts, heteroplastic, regeneration inhibition. 10.
- Liver** affections, mice. 48.
injury, assay. Inactivation estrone. 344.
CCl₄, protection. 388.
- Lymphoid** tissue response, injury, castration, thyroidectomy. 66.
- Malaria**, cephalin flocculation. 140.

- Mamma** development, relaxin. 8.
Meningococcus, penicillin resistant. 356.
Microsporon audouini, hair fat, fungistatic. 394.
Mite infestations. β , β -dithiocyano diethyl ether. 136.
Myiasis, intestinal, exp'l. 235.
1, 4-Naphthoquinone, 2, 3 dichlor, antimicrobial, Vit. K reversal. 225.
Neostigmine, physostigmine, denervated iris. 382.
Nerve section, expl. tumors, insect. 184.
Neuromata, end-bulb, prevention. 200.
Neuromuscular transmission, recuperation, effects, tenotomy. 381.
Neurosome discharge, muscle, heat reflex. 121.
Pain threshold, induced pain. 327.
Penicillin absorption, nose, alimentary canal. 159.
 action, temp. 133.
 detn., colorimetric. 293.
 ester metabolism. 272.
 nicotinamide synergists. 352.
 cral. *Erysipelothrix rhusiopathiae*. 307.
 resistant gonococcus. 354.
 meningococcus. 356.
 staph. 55.
 sputum inoculated eggs, tissue cultures. 23.
Pertussis, murine, streptomycin. 324.
Physostigmine, denervated iris. 382.
Pneumonia, virus psittacosis, serologic differentiation. 231.
Poliomyelitis, pyridoxin, inositol, biotin. 279.
Porphyria, Harder's gland. 228.
Protein, sunflower seed. 373.
Relaxin, mamma development. 8.
Rheumatic fever, autoantibodies. 379.
 subcutaneous nodules. 143.
Root polar growth, *Allium cepa*. 326.
Salmonella culture inhibition, streptomycin. 363.
Serine, alanine feeding, urine. 288.
 l-, dl-, toxicity. 284.
Shigella paradysenteriae antigen. 17.
 pptive. protective antibodies. 58.
Shock, drum method. 334.
 hemorrhagic, plasma amino N index. 20.
 tourniquet. 340.
Sodium restriction hypertension. 52.
Splenectomy, rbc., liver, iron, testosterone injn. 313.
Sprue treatment, folic acid, Vit. M. 259.
Staph. aureus, penicillin resistant, extracellular inactivating subst. 165.
Staphylococci, penicillin resistant. 55.
Stomach mucosa, exp'l. hyperplasia. 118.
Strep. viridans serology. 30.
Streptomycin absorption, excretion. 68.
 culture media. 127.
 murine pertussis. 324.
 placental transmission. 106.
 salmonella inhibition. 363.
 streptothricin, cytotoxicity. 365.
Subtilin, antibiotic *B. subtilis*. 60.
Sugars, rare, microorganism utilization. 269.
Sulfonamides, p-aminobenzoic acid, growth *Lupinus albus*. 217.
Sunflower seed protein. 373.
Temperature effect, excised heart. 26.
 regulation. 11.
Tenotomy, neuromuscular transmission, recuperation. 381.
Tetrahymena geleii, atabrine. 321.
Thiaminase, teleosts. 268.
Thiouracil effects, swine. 211.
 granulopenia, pyridoxine. 181.
 thyroid cytochrome inhibition. 148.
Thromboplastin, brain extr. 196.
 "thermostable" 374.
Thyroid cytochrome inhibition, thiouracil. 148.
Toxin, *Cl. welchii*, protection by lipids. 33.
Tubercle b. inoculation, hamster, guinea pig. 255.
Tumor grafts, autogenous, growth not prevented, homozygous embryo skin. 338.
 nerve section. 184.
Typhus infected yolk sacs, complement-fixation. 349.
 scrub, p-aminobenzoic acid. 80, 115.
Vasodilatation, dorsal root ganglion, synaptic connections. 129.
Virus, encephalomyelitis, equine, serologic distinctions. 110.
 neurotropic, tests. 84.
 poliomyelitis, pH, elution. 104.
 rabies, tissue culture propagation. 94.
 swine influenza, antibody response, vaccination. 152, 189.
 Theiler's GD-VII mouse, tissue culture propagation. 88.
Vit. B factors, poliomyelitis susceptibility. 279.
 C tolerance curve. 12.
 K deficiency, liver lipids. 146.
 reversal antimicrobial action 2, 3 dichlor-1, 4 naphthoquinone. 225.
 M, folic acid, sprue. 259.
 Nicotinamide, penicillin synergists. 352.
 Pantothenic acid, sparing action protein. 319.
 Pyridoxine, thiouracil granulopenia. 181.
